

Petrol Chainsaws for Property Maintenance Light and handy

There are many good reasons for choosing a compact chainsaw: advanced technology and safety features based on those of the professional saws, easy handling and an ergonomic design for working without tiring. STIHL compact saws are ideal for thinning shrubs and bushes and small trees, as well as for cutting firewood. These models are available as basic versions or comfort models (C) with catalytic converter (D), Chain Quick Tensioning (B) and ErgoStart (E) for jerk free starting.

Technical data	MS 150 C-E	MS 170	MS 210	MS 250
Displacement cm ³	23,6	30,1	35,2	45,4
Performance kW	1	1,3	1,6	2,3
Weight kg	2,8 ¹⁾	3,9 ¹⁾	4,4 ¹⁾	4,6 ¹⁾
Power-to-weight ratio kg/kW	2,8	3	2,8	2
Rollomatic E, cutting length cm	30	30	30	
Chain pitch	1/4" P	3/8" P		.325"
EPA Certified fuel consumption l/h	0,51	0,82		1,39
Oil tank volume cm ³	150	145	200	200
