

Cordless Trimmers

Mobile, quiet and powerful.

Cordless Trimmers

A mobile, quiet and powerful means of keeping grass under control - the new STIHL cordless 36 V brushcutters are confident of keeping this promise. They offer impressive cordless mowing performance based on a long-lasting lithium-ion battery and a brushless, electronically controlled electric motor (EC). The ideal tools for all situations where noise and emissions are not wanted - for local garden maintenance, or close to hospitals, cemeteries and nursery schools.
